“The 21st Century Pharmacy”

Important Notice: NYS Medicaid Pharmacy Providers!

NYS Medicaid is Moving Away from “Fee for Service” Reimbursement to “Value Based Payments” (VBP)

NYS Medicaid DSRIP - Value Based Payment Reform

“DSRIP is the main mechanism by which New York State will implement Medicaid Redesign. DSRIP’s purpose is to fundamentally restructure the health care delivery system by reinvesting in Medicaid with payouts based upon achieving predefined results relating to clinical management and population health.”

NYS Medicaid is in the process of implementing the CMS initiatives for determining reimbursement based upon some well defined measurements in improving the overall health of the patient. You may be familiar with the principals of the Medicare 5 Star Rating System. As you know, this means significant and new pharmacy responsibilities to ensure patient medication compliance, increased patient intervention as well as increased responsibilities in handling Medication Therapy Management cases (MTM).

VBP is now the primary driver for Medicare Advantage plan reimbursement and is spreading to commercial insurance (NY Empire Blue Cross is running their test implementation). A pharmacy’s failure to meet these measurement standards will have dire financial consequences in the very near future.

***Point of Care Systems is well ahead of the curve in helping you
Meet DSRIP/VBP Responsibilities!***

Our industry insight in partnering with PrescribeWellness, as well as engineering full pharmacy data integration will make available the full PrescribeWellness “toolkit” necessary to ensure that Point of Care Systems Valued Customers will be able to meet the challenges of DSRIP/VBP and remain financial viable for years to come!

***“Enhancing Patient
Care and
Profitability Through
Thoughtful and
Efficient Technology!”***

Program Components:

- Patient Dashboard.
- Loyalty Communications for Medication Compliance.
- Automate Medication Synchronization.
- Real-time Medicare Plan Comparison to help you assist patients make the right plan choice.
- Revenue Opportunities through increased prescription volumes, MTM case management and heightened Star Ratings Scores .

Don’t Delay!
